

Amendments to the Claims:

This listing of claims will replace all prior versions, and listings, of claims in the application:

Listing of Claims:

- A11
- 1) (Currently amended) A liner for personal care products comprising a hydrophilic first bodyside apertured nonwoven layer laminated with a hydrophobic second apertured nonwoven layer.
 - 2) (Currently amended) The liner of claim 1 wherein said ~~first layer and said second layer~~ apertures the apertures of the first layer and the apertures of the second layer are aligned.
 - 3) (Currently amended) The liner of claim 1 wherein said first layer comprises ~~durably hydrophilic~~ fibers with durable hydrophilicity.
 - 4) (Currently amended) The liner of claim 1 wherein said second layer comprises ~~non-durably hydrophilic~~ fibers with non-durable hydrophilicity.
 - 5) (Currently amended) The liner of claim 1 wherein said layers are laminated ~~according to a~~ by a spunlace process.
 - 6) (Currently amended) The liner of claim 1 further comprising a treatment applied to said hydrophilic first layer, said treatment selected from the group consisting of aloe, vitamin E, mineral oil, baking soda and combinations thereof.
 - 7) (Currently amended) A liner for personal care products comprising a first bodyside nonwoven layer comprising staple, naturally hydrophilic fibers hydroentangled ~~to form a laminate~~ with a second nonwoven layer comprising hydrophobic fibers to form a laminate, wherein said laminate is apertured ~~with an area of~~ to produce apertures with an open area of 10 to 50 percent of the total surface area.
 - 8) (Original) The liner of claim 7 wherein said first layer comprises hydrophilic fibers selected from the group consisting of rayon, pulp, cotton, naturally hydrophilic fibers, and mixtures thereof.
 - 9) (Original) The liner of claim 7 wherein said second layer comprises hydrophobic fibers made from polymers selected from the group consisting of polyolefins, polyesters, acrylics and mixtures thereof.
 - 10) (Currently amended) The liner of claim 7 wherein said laminate is apertured ~~with an area of~~ from to produce apertures with an open area of 10 to 50 20 to 40 percent of the total surface area.

- 11) (Currently amended) The liner of claim 7 wherein said apertures in said first and second nonwoven layers are aligned.
- 12) (Currently amended) ~~A personal care product comprising the~~ The liner of claim 11 as a component of a personal care product.
- 13) (Currently amended) A pantiliner comprising a liquid permeable liner, a liquid impervious baffle, and an absorbent core positioned therebetween, wherein said liner comprises a hydrophilic first bodyside apertured nonwoven layer laminated ~~according to a~~ by a spunlace process with a hydrophobic second apertured nonwoven layer.
- 14) (Currently amended) The pantiliner of claim 13 wherein ~~said first layer and said second layer apertures~~ the apertures of the first layer and the apertures of the second layer are aligned.
- 15) (Currently amended) A process of making a liner for personal care products comprising hydroentangling a hydrophilic first bodyside nonwoven layer with a hydrophobic second nonwoven layer and aperturing said layers.
- 16) (Original) The process of claim 15 wherein said layers are apertured simultaneously to produce aligned apertures.
-
